TRAFFIC SIGNAL IMPROVEMENT AT JENKINS AND STINSON

The City Traffic Control Division will be upgrading the traffic signal installation on Jenkins Avenue at the Stinson Street intersection. The work to be accomplished includes the replacement of one signal head, the modification of a second signal head, minor rewiring within the traffic signal controller cabinet, and the addition of a traffic control sign. This work will take place on Monday, June 30, 2014, weather permitting. After 9:00 a.m. on June 30th, the intersection may be temporarily controlled by flaggers. Full signal operation should be restored at the intersection by 12:00 p.m. on the same day. Any questions about the project can be directed to Mr. David Riesland, City Traffic Engineer, at 405-329-0528.
